### ABOUT ME

Passionate Frontend Developer skilled in React and Next.js, with a strong focus on clean, responsive, and scalable UI design. Experienced in component-based architecture, RESTful API integration, and modern frontend workflows. Dedicated to building user-centric web applications that balance performance, accessibility, and visual design.

### WORK EXPERIENCE

**IAS Industrial Application Software Türkiye** | Frontend Developer Intern | July 2024

- Evaluated the compatibility of existing React 16 libraries with React 18 during migration planning and prepared a detailed report for the development team.
- Collaborated with a 3-member team to design and build a Kanban board web interface, focusing on the front-end architecture and component development.
- Enhanced skills in modern React workflows, version control, and scalable UI optimization

**Jotform** | UI-UX Developer Intern | Aug - Sep 2024

- Worked with a 4-member team to build the front-end of Jotform's internal Board project.
- Translated Figma designs into pixel-perfect, fully responsive layouts using Jotform CSS and pure CSS.
- Developed an analytics page for the Jotform Board product, ensuring consistency with the component library and design system.
